EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY

Bachelor of Computer Science and Engineering (CGPA: 9.08)

VELLORE, INDIA

July 2022 – July 2026

R.N. PODAR SCHOOL

Physics, Chemistry, Math, Computer Science (Class 12: 92%)

MUMBAI, INDIA

April 2018 – April 2022

WORK EXPERIENCE

REVVITY HEALTHCARE (4.5 BILLION DOLLAR BIOTECH COMPANY)

THANE

Data Analyst Intern

May 2025 – July 2025

- Utilize **Python** and **Power BI** to analyze and visualize large datasets. Independently developed a comprehensive audit logging report.
- Wrote various scripts to test user-defined functions (UDFs) for **data pipelines** and contributed to the design and logic of an **e-commerce recommendation engine**.

VOXVERTEX

REMOTE

Backend Developer Intern

June 2024 – August 2024

- Engineered core backend for a mobile app using **Go (Gin)**, **PostgreSQL**, and **Docker**.
- Integrated features like **Google Calendar sync**, payments, **OAuth 2.0**, and instant messaging.

GOVGPT (Trademarkia)

REMOTE

Backend Developer Intern

January 2024 – May 2024

- Developed the backend of a law enforcement application using **Flask** and **GoLang**, using **Timescale DB** as the database and **OAuth2.0** for user authentication.
- Converted **GraphQL** database logic from **NodeJS** to **GoLang** for improved performance.
- Maintained and optimized legacy **NodeJS** codebase; upgraded spam and profanity filters.

ORGANISATIONS

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS (SIAM), VIT

VELLORE, INDIA

Technical Chairperson

September 2023 – Present

- Oversee projects and operations, including code reviews and sessions on GitHub, Web Development, and Competitive Coding.
- Developed frontend and backend portals for the flagship events, Math Premier League ([GitHub](#)) and Coding Relay ([GitHub](#)), both of which hosted over 100 concurrent participants.

CODECHEF - VIT STUDENT CHAPTER

VELLORE, INDIA

Core Committee Member

March 2023 – Present

- Developed the backend for India's largest student-run hackathon, DevSoC 24', using **GoLang**, **Redis** and **PostgreSQL**, hosting over 500 participants ([GitHub](#))
- Developed backend for "CookOff 8.0" using **ExpressJS** and **Judge0 API**, hosting 200+ participants. ([GitHub](#))
- Led a backend development session on **ExpressJS** and **MongoDB**.

PROJECTS

Golang File Setup Extension ([Link](#)) ([GitHub](#))

- VSCode Extension** that initialises basic files and folder structure for Go frameworks (Gin/Echo/Fiber/Chi), including main.go, Docker files, and optional SQLx setup.

VTOP to Google Calendar Extension([GitHub](#))

- Google Extension automatically syncing due dates of all Digital Assignments from VTOP to Google Calendar.

gRPC-Game ([GitHub](#))

- Multiplayer quiz game using gRPC to stream responses from users and update the leaderboard with their points.

SKILLS

Languages: GoLang, Javascript, Python, SQL, GraphQL, C++, C, R, Java, HTML, CSS

Frameworks: Gin, Echo, GoFiber, Chi, ExpressJS, Django, Flask, ReactJS, NextJS

Tools: AWS (S3, EC2, ECS), Docker, JWT, OAuth 2.0, gRPC, NGINX, Power BI, Databricks

Certificates: [AWS Cloud Practitioner](#), [The Complete Full Stack Web Development Bootcamp](#), [Supervised Machine Learning: Regression and Classification](#), LCM Grade 7 - London College of Music Examinations
