

AKSHAT GUPTA

Mumbai, India | [+91 9871205656](tel:+919871205656) | akshat.g1707@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website](#)

Passionate about backend development, I excel in Go, NodeJS, and Python. I'm a quick learner, team player, and leader. Looking for opportunities to broaden my expertise and grow my skill set.

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY

Bachelor of Computer Science and Engineering (CGPA: 9.08)

VELLORE, INDIA

July 2022 – July 2026

R.N. PODAR SCHOOL

Physics, Chemistry, Math, Computer Science (Class 12: 92%)

MUMBAI, INDIA

April 2018 – April 2022

WORK EXPERIENCE

GOVGPT (Trademarkia)

REMOTE

Backend Developer Intern

January 2024 – May 2024

- Developed the backend of a law enforcement application using **Flask** and **GoLang**, using **Timescale DB** as the database and **OAuth2.0** for user authentication.
- Converted **GraphQL** database logic from **NodeJS** to **GoLang** for improved performance.
- Developed a program which filters PDFs containing multiple emails along with hyperlinks into separate entities.
- Maintained and upgraded the legacy codebase written in NodeJS, implementing better spam and profanity filters.

VOXVERTEX

REMOTE

Backend Developer Intern

June 2024 – August 2024

- Developed the backend of a mobile application using **GoLang** (**Gin** framework), **PostgreSQL** and **Docker**,
- Implemented functionalities such as **Payments**, **Google Calendar** integration, **OAuth2.0** and **instant messaging**.

ORGANISATIONS

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS (SIAM), VIT

VELLORE, INDIA

Technical Chairperson

September 2023 – Present

- Oversee operations, including code reviews and sessions on GitHub, Web Development, and Competitive Coding.
- Organized "Bug Hunt" event with Python, C, and C++ challenges of varying difficulties.
- Developed frontend and backend portals for the flagship events, Math Premier League ([GitHub](#)) and Coding Relay ([Github](#)), both of which hosted over 100 concurrent participants.

CODECHEF - VIT STUDENT CHAPTER

VELLORE, INDIA

Core Committee Member

March 2023 – Present

- Developed the backend for India's largest student-run hackathon, DevSoC 24', using **GoLang**, **Redis** and **PostgreSQL**, hosting over 500 participants ([GitHub](#))
- Developed backend for "CookOff 8.0" using **ExpressJS** and **Judge0 API**, hosting 200+ participants. ([GitHub](#))
- Led a backend development session on **ExpressJS** and **MongoDB**.
- Built backend for an e-commerce platform with NSFW filtering using **GoLang** (**Fiber**) and **OAuth2.0**.

PROJECTS

Golang File Setup Extension ([Link](#)) ([GitHub](#))

- VSCode Extension** that initializes basic files and folder structure for Go frameworks (Gin/Echo/Fiber/Chi), including main.go, Docker files, and optional SQLx setup.

VTOP to Google Calendar Extension([GitHub](#))

- Google Extension which automatically syncs the due dates of all Digital Assignments from VTOP to your Google Calendar.

gRPC-Game ([GitHub](#))

- Multiplayer quiz game which utilizes gRPC to stream responses from users and updates the leaderboard with their points.

SKILLS

Languages: GoLang, Javascript, Python, SQL, GraphQL, C++, C, R, Java, HTML, CSS

Frameworks: Gin, Echo, GoFiber, Chi, ExpressJS, Django, Flask, ReactJS, NextJS

Tools: AWS (S3, EC2, ECS), Docker, JWT, OAuth 2.0, gRPC, NGINX

Certificates: AWS Cloud Practitioner, LCM Grade 7 - London College of Music Examinations
